

CW Electronx UART Board for *Raspberry Pi*

- ▲ CWE's first Raspberry Pi UART add-on board that provides a USB serial port to PC using the FTDI FT232 chip as the protocol bridge.

Features:

- ▲ Elegant design, easily integrates into Raspberry Pi 2, B, B+, or A+
- ▲ Supports CTS, RTS handshake signals
- ▲ Supports baud rates up to 3Mbps
- ▲ Designed with Unique USB ID (FTDI FT232 Chip)
- ▲ Nylon Standoffs (included)
